

**The aluminium
assembly system
with unlimited
construction
possibilities.**

PVS®

The extrusion connection system that delivers custom-made structural solutions.

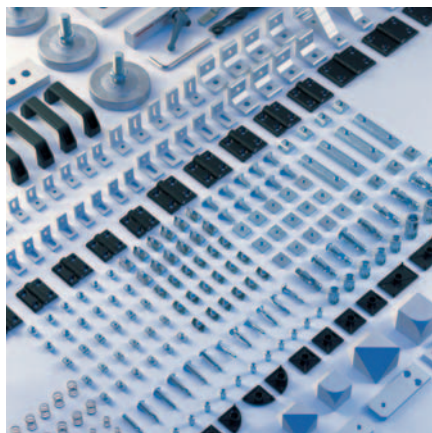

RVS®

The tube clamp system for adjustable applications.

Patented connection systems for easy and fast connection possibilities.

An assortment of over 150 different extrusions and tubes as well as over 1'500 accessories.

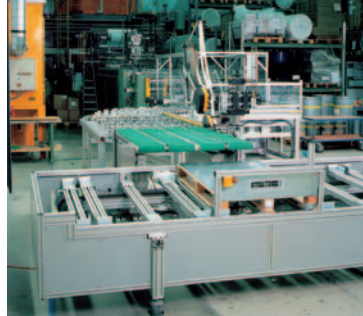

KANYATHEK. Please order our electronic product library and design software on CD-ROM or for download on our website. (www.kanya.com/Service/Kanyathek)

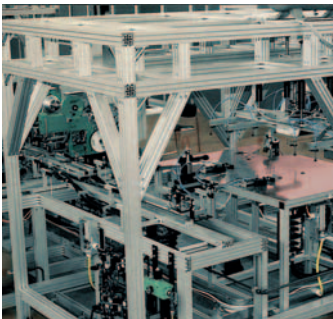

Machinery industry and automation

Longitudinal and transverse cutting machine

Automatic palletizing plant

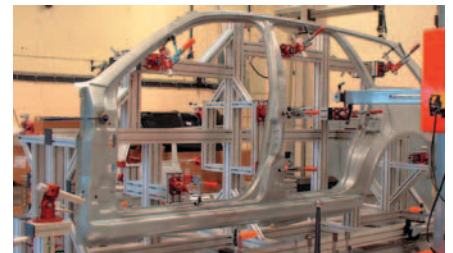

Transforming construction

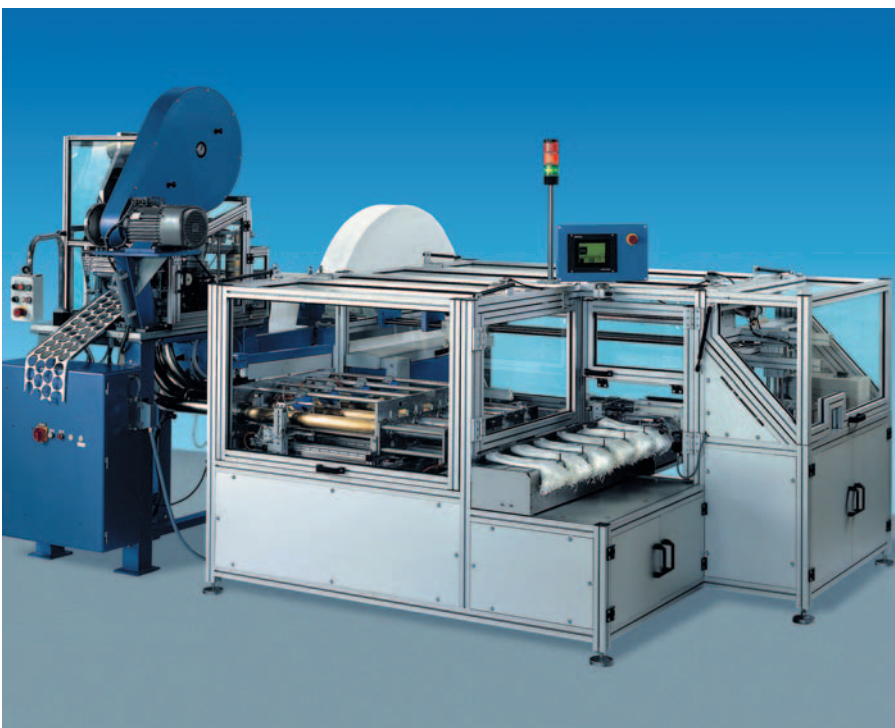

Filling construction

Newspaper handling system

Clamping and measuring device

Punch and packing automat

Plane wing testing machine

Cleaning plant

Technical consulting through engineers,

who understand customer requirements and further develop your innovative ideas.

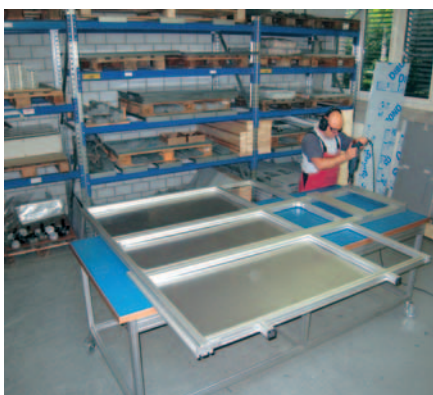

Efficient design through construction engineers,

who develop offers, designs and part-lists quickly with state-of-the-art software.

Machining and conditioning through qualified staff,

who produce the desired finished product with cost efficiency and precision.

Final assembling through specialists,

who build turn-key solutions, even at your location if required.

Safety systems and cabinets

Safety housing

Dust protection cabin

Acoustic protection for blower

Safety device with automatic door

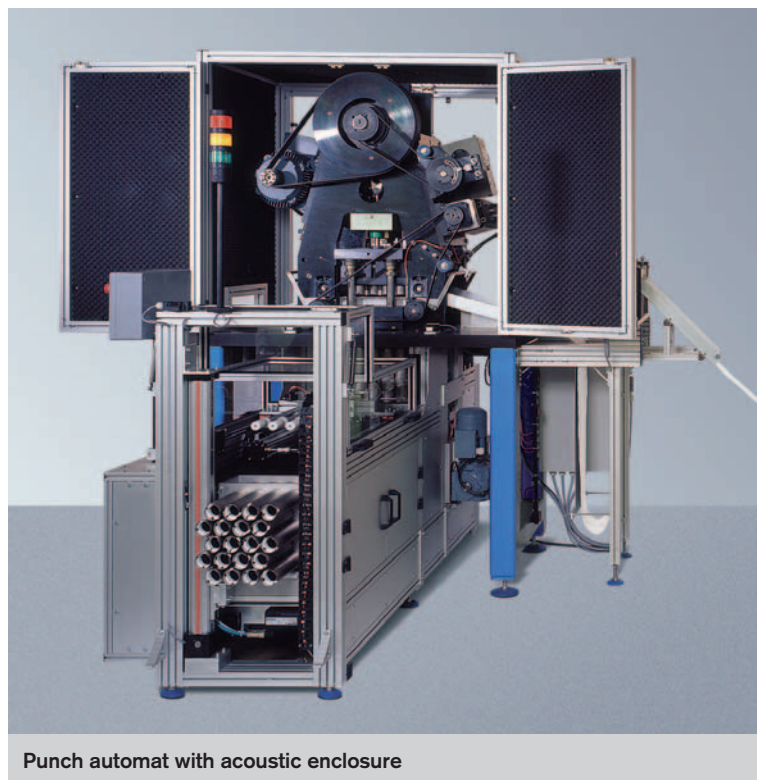

Acoustic protection cabin

Casing for deburring facility with safety glass

Clean room testing cell

Punch automat with acoustic enclosure

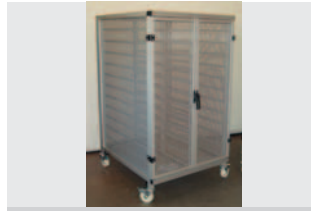

Production facilities

Rail carriage assembly frame

Tool wall

Dehydration vehicle

Long-item storage rack

Workstations

Work station

Workstation with chapel

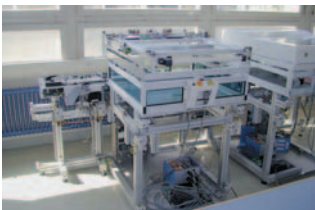

Installation workstation

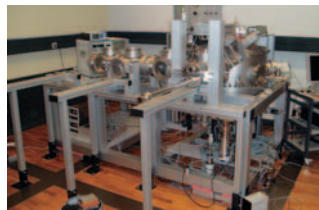

Mobile work desk

Laboratory and medical applications

Automated filling equipment

Laboratory equipment

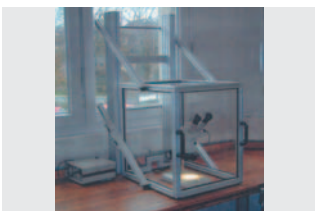

Batch device sterilization

Automatic gilding plant

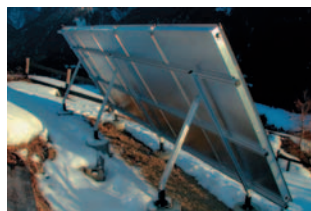

Research and solar technology

Protection cover for lab device

Laser research plant

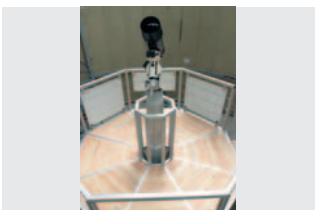

Solar plant

Solar power station

Special applications

Platform for observatory

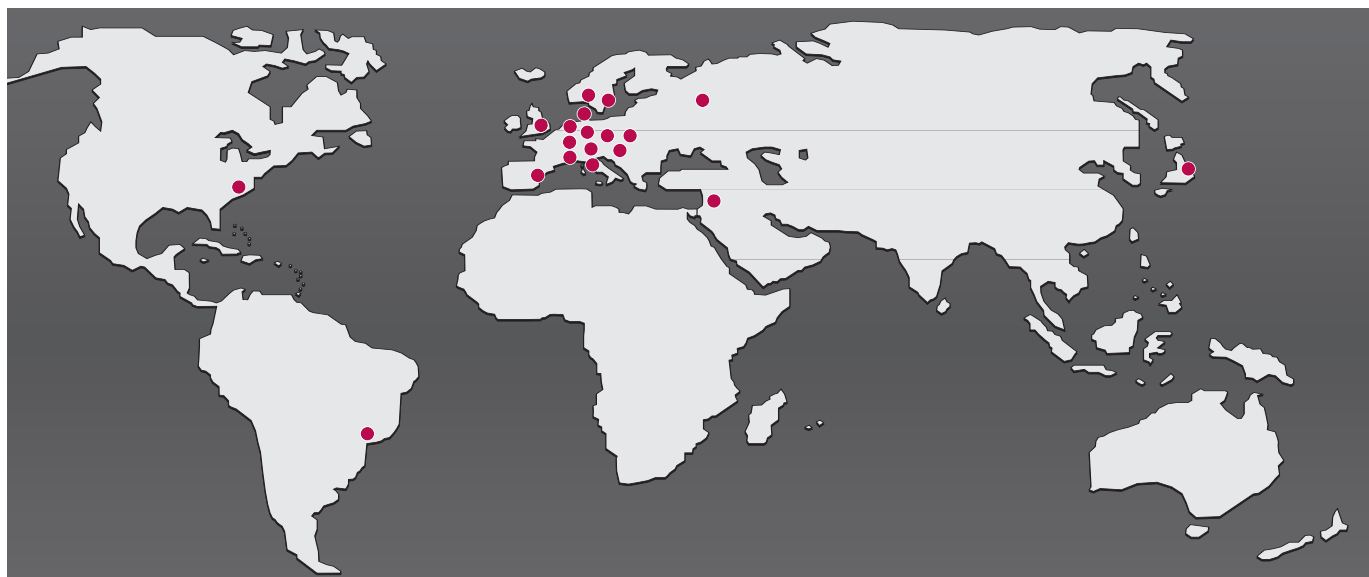

Research model jet fighter

Trailer for gardening

Boat stage
