

To: Distributors
Attn.: To Whom It May Concern
Date: August 6, 2015

Dear Sir,

We appreciate your daily sales activities and cooperation to PISCO.

Tube Fitting, Main Block appearance and dimensional change on some models

We are going to execute following design changes on a part of Tube Fitting series, and Main Block series.

We believe this design change meets customer's light weight and downsizing request.

Although putting our best effort for smooth transition, we apologize for the inconvenience caused by this change but hope you understand and welcome our new sales strategy.

Sincerely Yours,

1. Subject models

【Tube Fitting】Standard type, Clean-room package and ultra-sonic clean wash specification

Type: Female Elbow (PLF), 45° Elbow (PLH), Triple Run Tee (PKD), Twin Triple run Tee (PKVD), Branch Elbow (PAX), Tripod Elbow (PVX), Double Branch Y (PRX)

【Main Block】Bulkhead Reducer (MKR)

*Please refer to an attached sheet for details

2. Changes

Appearance and dimensional change

•All shapes will be light weighted and downsized. (Except some models)

•Please refer to our homepage for dimension.

*Specification, tube-fitting operability and price remains the same.

*CAD data could be prepared from July.

Example) Female Elbow
(PLF)

<Running model>

<New model>

Example) Bulkhead
Reducer

<Running model>

<New model>

*The material for the bulkhead nut will be changed to carbon steel (trivalent chromate treating) from brass (electroless nickel plating).

3. Date of execution :These changes shall be executed sequentially from September, 2015.

Please make inquiries to following sales office.
